

This wedding price sheet might look slightly different from others you may have seen. I've come to realize that simplicity is the best policy. Instead of offering an elaborate menu of package configurations with limited hours, various sizes of prints and other trinkets, etc, I basically offer a single package containing two things:

THE PHOTOGRAPHS.

It's obvious, but nonetheless true: The images of your wedding day simply must be great. Above everything else, that is my absolute top priority.

My Philosophy.

Unlike some, I don't believe that there is much that I can add to your day. In fact, I believe that if given the opportunity to simply be yourselves and relax, all you really need is just someone with a great eye, a great attitude, experience, and good timing, who can discreetly capture and chronicle the *truly* romantic and unforgettable moments that make up your profoundly special occasion.

In short: I believe the photos that you will actually want to look at year after year will be the ones that capture the wonder, joy, and "magic" of your day, not a series of forced unnatural poses. *Simply you* – surrounded by the love of your friends and family.

The Shots.

Candid, fresh, fun, playful, sweet, emotive, honest, and memorable. These are what I strive for. I almost always bring a skilled second photographer along to make sure nothing gets missed, and we shoot high quality digital (and sometimes film) images that are delivered in either black & white or color.

You will have a simple, private proofing gallery online. You will also receive digital versions of all your selected images, sized appropriately for email and online sharing. An archive of the high resolution versions can be purchased for \$500.

THE BOOK.

Once the photographs of your big day are made, the next step is to produce an heirloom-quality hard-bound book that exquisitely tells the story of your wedding in classically-styled, large-format beauty.

Quality.

The book is leather-bound, printed on premium paper with premium inks and guaranteed for life. I use a world-famous Italian book-printing company that produces the finest photo-books anywhere.

I bring a decade's worth of design experience to the process of preparing your book. Here's the secret: *it's all about the photos.* The pages are not filled with gaudy borders or pastel color schemes. Instead, the images themselves are the main (and only) event. They are presented in rich tones, full page, devoid of almost any embellishment, and arranged with an eye towards telling the story of your wedding.

How it works.

You simply use the online gallery and/or printed proof book (optional) to make a selection of your favorite images (most people have a couple dozen that they especially like). Then, using your favorites as the main anchors of the book, I craft an album that presents both the grand evocative moments of the day, as well as the tiny details and fleeting moments that make it all so unique.

In the end, you have a beautiful art piece that you'll truly want to look at and share for years to come.

\$3500

You're also free to order whatever you wish *a la carté* from the following menu of print sizes:

8 wallets	15.00	11x14	60.00
4x6	10.00	16x20	120.00
5x7	15.00	20x24	160.00
8x10	20.00	30x40	240.00
